WIDE BODY

E class Coupe wide body R

Our **wide body R** aero body kit fits the 2010 E class Coupe and Convertible models (c207 and a207). It has been designed to enhance both racing esthetics and performance on the track. Larger openings in the front bumper and hood vents help to get a better engine cooling. Carbon fiber inserts and carbon fiber front spoiler lip give it a better racing and aggressive look.

The **wide body R** has a set of fender flares 8 pieces with air intakes, allows to mount wider wheels in 20" and lower suspension and gives an aggressive look and a visual power to this car. The carbon fiber rear diffuser combined with the double twin tip exhaust achieves the overall aggressive look of the vehicle.

The front bumper set features LED daylights and directional foglights bringing your car to a racing style level.
