

E-Class (w211) 'DTM' bodykit

The new 2002 E-Class - let the picture do the talking. Well, if we must, the DTM-derived styling is carried through to the finest details.

An evocative style that personifies grace and tradition, this bodykit from yours truly can be fitted to the 'Elegance' and 'Classic'. With it comes an exclusive dual exhaust system, as well as optional side intakes for the front bumper.
